EDUCATION

BACHELOR'S OF TECHNOLOGY

Chitkara University
2018-2022
9.76 CGPA

SKILLS

TECHNICAL SKILLS

- **Core Frameworks:** Expo, React Native CLI, React.js
- **Languages:** TypeScript, JavaScript (ES6+), Swift, Swift UI, HTML, CSS
- **State Management & Data Fetching:** Redux Toolkit, Zustand, React Query Kit, RTK Query, Axios, Redux Saga
- **Native & Cloud Architecture:** iOS CallKit, VoIP, APNs, FCM (Firebase Cloud Messaging), Native/Turbo Modules, UPI Intents, Deep Linking (MoEngage, OneLink)
- **Real-Time & Media:** WebSockets, Stream (Audio/Video Calling Engine), AV Player(iOS)
- **Testing & Telemetry:** Firebase Crashlytics, Firebase Analytics, Jest, React Native Testing Library, Device Performance Profiling, BugBubble (In-App Inspector)
- **DevOps & Tooling:** Git/GitHub, pnpm/npm, Firebase App Distribution, Webstrom, VS Code, Android Studio, Xcode, Jira, Confluence (Technical Design Docs)

SDE-2 Mobile Engineer and Frontend Pod Lead with 5+ years of React Native and native iOS (Swift) experience, successfully architecting complex applications across both high-growth product companies and agile service-based environments. Specializes in 0-to-1 product development, framework migrations (RN New Architecture), and real-time WebSockets. Proven track record of driving cross-functional teams, recently scaling a marketplace app to 50L+ downloads and driving an 11% ARPU lift.

EXPERIENCE

REACT NATIVE DEVELOPER | SDE II

Behtar Technologies (Lokal) | Bengaluru, India
March 2025 - Present

Project - AstroLokal

- **Frontend Pod Lead:** Architected AstroLokal from **0-to-1**, scaling to **50L+** downloads while maintaining a **>99.2%** crash-free session rate.
- **Real-Time Consultation:** Engineered audio/video calling, in-call chat, persistent call UI, and WebSocket-based connectivity handling.
- **Monetisation & Revenue Impact:** Engineered in-call recharge flows and A/B tested dynamic UIs, lifting recharges per booking to **17.8%**, revenue per view by **7%**, and ARPU by **11%**.
- **OBD/IVR Integration:** Extending AstroLokal with outbound dialing and interactive voice response capabilities.
- **iOS & Native Integrations:** Spearheaded the 0-to-1 iOS launch (Top 10 Lifestyle app), with CallKit, VoIP, push notifications, UPI, and deep linking, supporting calls across app lifecycle states.
- **Marketplace Queue:** Architected the bidirectional user/expert queue frontend, capturing excess demand (+5% waitlist entry) and driving a ~5x jump in M0 ARPU.
- **Growth & Attribution:** Integrated AppsFlyer, OneLink, campaign tracking, and repeat-engagement features across Android and iOS.
- **Reliability & Engineering:** Resolved critical calling, chat, and notification issues; authored technical designs and integrated Firebase App Distribution.
- **Product Ownership:** Owned end-to-end frontend delivery through cross-functional collaboration, mentoring junior engineers and enforcing code quality standards.

OPEN SOURCE CONTRIBUTIONS

React Native BugBubble

Creator & Maintainer | [npm](https://www.npmjs.com/package/react-native-bugbubble) | [GitHub](https://github.com/shivangi1101/react-native-bugbubble)

- Developed a lightweight, plug-and-play in-app debugging tool for React Native apps.
- Implemented features to intercept and log network calls, WebSocket connections, and console methods automatically.

LANGUAGE

- English
- Hindi

REACT NATIVE, REACT.JS | SOFTWARE ENGINEER

VT Netzwelt | Mohali, India

Nov 2022 – Mar 2025

Simpliscada:

- **Architecture & Routing Upgrade:** Led the React Native migration from 0.68 to 0.72 (New Architecture) and completely revamped the navigation stack to systematically support complex, deeply nested multi-stack routing.
- **State Optimization:** Migrated state management from Redux Saga to RTK Query, significantly reducing boilerplate and optimizing API data fetching.
- **Advanced WebViews:** Engineered a bidirectional WebView event bridge integrating Canvas.js, Chart.js, and Hammer.js to render JSON-driven IoT diagrams with multi-axis support and advanced touch gestures.
- **React.js Web App:** Developed the companion web platform with strict Content Security Policies (CSP), building a 3-level nested drag-and-drop file manager and granular report-sharing controls.

IOS/REACT NATIVE DEVELOPER

NovoInvent Software, Noida

2021 Jan - June 2022

- **Vocabimate:** Developed a video-driven educational platform for vocabulary acquisition, engineering custom React Native bridges to the native iOS AVPlayer library to deliver seamless offline video playback and usage tracking.
- **Custom CRM System:** Developed a CRM solution to manage customer contact information and track interaction lifecycles, ultimately optimizing customer lifetime value.
